In an effort to encourage less experienced shooters to sample the atmosphere of a record status shoot, Corus Deeside AC are pleased to open the Bristol rounds to all competitors regardless of age. If you are a senior shooter who cannot reach the longer distance, please feel free to enter a shorter distance of your choice. The only restriction to this will be that shooters out of their correct age category will not be eligible for prizes or placement in the results table. Results will be published separately for interest only. Please feel free to contact me if you have questions.

### Shooting Method 1.

- a. One sound signal shall indicate when the first shooting detail shall take their place on the line and begin shooting. Each archer shall shoot three arrows and immediately retire, being replaced by the archer from the subsequent detail. When all on a target have shot, the archer, if required, shall shoot three more arrows. If an archer persists in shooting more than three arrows consecutively, he may be disqualified by the Judge.
- b. When all archers have shot, three sound signals shall indicate that archers are to move forward to score and collect arrows. No archer shall advance from the shooting line before receiving the signal.
- c. Two and a half minutes shall be the maximum time for an archer to shoot three arrows, the time to start from when the archer steps on to the shooting line.
- d. Any archer who is observed to be exceeding the time limit of 2½ minutes for three arrows shall be advised of the time error after retiring from the shooting line. The scoresheet for that archer shall be marked at that end to record the warning in the following manner — "Time warning". The archer will also be advised that any further violation of the 2½ minute time limit will result in the top scoring arrow of that end being disallowed. Should this continue to the detriment of the shoot or the other archers on that target, the offending archer will be asked to retire from the tournament.
